Coding Activity

Is there a biome, like the forest, ocean, or desert, that you find really interesting? What sorts of colors, plants, and animals are in that biome? What colors do you often see there? Create a biome simulator on Scratch! For an extra challenge, have the plants and animals interact! What kinds of animals eat which plants? Can you make the plants grow back?

Dancing at parties can be so much fun! What types of dances do you like to do? Look up a few types of dances that other cultures and people like to do, and program them into a Scratch dance party! Will your sprites dance in sync (all together)? Or will each one have their own cool dance moves to show off?

The world looks very different when it rains! The sky changes, the streets might be full of water, and the plants get a good drink. Other things might change, too.

Create a rain simulator on Scratch that shows your favorite outdoor spot before and after it rains. Don't forget to add in the raindrops!

The best kid's TV shows are full of bright colors, fun, and teach you something new. Use Scratch to program your own kid's TV show for yourself or someone you know.

Don't forget to include voices for your characters and music!
